## On Center Software Solution

On-Screen Takeoff®

**A**ction Roofing Inc. (ARI) was established in 1974 and incorporated in 1975 by Junior Beaver. In 2001, the company was sold to the current co-owners, Rick Jackson and Marvin David. Located in Broken Arrow, Oklahoma, ARI specializes in both commercial and residential properties ranging from schools, hospitals, churches, apartment complexes and restaurants to residential single home projects and repairs. The company tackles new construction, re-roofing, and repairs for both roofing and sheet metal. The company's trade specialties include commercial and residential roofing and sheet metal: single ply, built up, clay tiles, custom sheet metal products, standing seam metal roofing, asphalt, slate, and wood shake shingles. Being in business for close to 40 years has allowed ARI to build lasting relationships with customers and general contractors due to its commitment to quality of work. The company is registered with the Oklahoma Construction Industries Board and is fully insured and bondable. ARI's commitment to customer service is evident by their 24/7 phone support provided to their clientele. A full time knowledgeable employee is always on hand to answer questions that arise regardless of the time of day.

## CHURCH PROJECT

LifeChurch.TV (LCT) is part of the Evangelical Covenant Church (ECC) and is based out of Edmond, Oklahoma. Since LCT began in 1996, it has grown by leaps and bounds; today it is a multi-site church with campuses all across the country, as well as a campus that meets entirely on the internet. As part of their growth plan in mid-2012, the church decided to build a new facility in Jenks, Oklahoma to service the local congregation/ ARI was awarded the roofing contract and started the project in January 2013. ARI's scope of work included a tapered insulation system and a single ply roofing system. ARI successfully completed this job within 30 days to ensure that the congregation did not suffer any delays in using their building. ARI leveraged On-Screen Takeoff® by On Center Software to successfully bid the job and handle the alternates. LCT has set a goal to add up to four new locations nationwide in 2013 to hold a congregation of approximately 1,500 people. ARI is the roofing contractor of choice for C.B.C.I. LLC (the general contractor) because of their on-time delivery and impeccable quality of work.

## REPEAT CUSTOMERS

Whether the project at hand is small or large, a place of worship or an educational facility, ARI delivers superior value to each and every project. ARI is committed to producing the highest quality of work while ensuring on-time delivery. This commitment to excellence is why 70% of ARI's business is from repeat customers. ARI enjoys a competitive edge over other roofing contractors in the area.
